Due Diligence

LivePerson has conducted a risk assessment of its suppliers and determined that the majority of its suppliers are considered to be low risk in regards to engaging in forced labor due to the following reasons:

- LivePerson is a provider of SaaS and professional services, which does not fall within the industries that are typically considered high risk.
- LivePerson maintains robust human resources processes to ensure that all prospective employees are vetted through pre-employment checks in accordance with applicable local laws and policies, including verification of candidates' legal right to work in a particular jurisdiction, and expects the same from its suppliers.
- There is low risk of illegal activities, such as those protected by the Act, in many of the geographic locations in which LivePerson's customers and suppliers are located.

Policies and Practices

LivePerson maintains a number of internal policies and practices relevant to modern slavery and to ensure that it conducts business in an ethical and transparent manner. These include the following:

- **Recruitment Practices.** LivePerson operates a robust recruitment process, including conducting checks to confirm each individual's eligibility to work in their location, in order to safeguard against human trafficking or individuals being forced to work against their will.
- **Whistleblower Policy.** LivePerson maintains a Whistleblower Policy so all employees know they can raise concerns about how colleagues are being treated, or practices within LivePerson's business, without fear of retaliation.
- **Code of Conduct.** LivePerson's Code of Conduct sets forth guidelines for honest and ethical practices as an organization and for each director, officer, and employee individually.
- **Code of Ethics for Chief Executive and Senior Officers.** LivePerson's Code of Ethics for Chief Executive and Senior Officers provides guidelines on the business practices and principles of behavior that support LivePerson's commitment to the highest standards of ethical business conduct.

Vendors

LivePerson commits to operating its business in an ethical and responsible manner and expects the same from its vendors. As part of its contracting process, LivePerson requires its vendors to commit to comply with all applicable laws and regulations, including the Act. In the event that LivePerson becomes aware of any violations or issues related to slavery or human trafficking, LivePerson will

work to ensure that appropriate measures are taken, which may include reporting this information to appropriate authorities and terminating its relationship with the supplier.
